**BEARDLESS IRIS AUCTION AND SALE!** Pacific Coast iris, Japanese iris, Spurias, Siberians, Louisianas, and Species Iris will be available, from the gardens of commercial growers and veteran members, ready to plant. Of course, you can contribute to the cause by purchasing beardless iris for your garden or as gifts for friends!

**DIGGING, WRAPPING, AND REPLANTING BEARDLESS IRIS:**

Those bringing in iris are reminded that most beardless iris can be transplanted only during periods of active root growth. If, like many, you have not been watering during the summer months, go out NOW and give them a good soaking! Then, wait til the last possible moment to dig and package.

Some techniques suggested by Alan Robbins for transporting your iris:

Clean them well, label them with their name, color and year of introduction

(if possible) high enough on the leaves so that the buyer can read the info after packaging. Trim the leaves if they are too long for display on the sales table. The rhizomes and roots should be wrapped in wet paper towels or newspaper, placed in a plastic bag or Saran wrap and secured with masking tape. The tape can be an additional or alternate label.

**PLANTING ~**

Plant as soon as possible. Remember that PCIs, Siberians, Louisianas and Japanese iris prefer acid soil, while Spurias do best in neutral to alkaline soil. Before planting, soak Japanese, other water iris, Siberians and Louisiana iris in enough water to cover the roots. Japanese & other water iris should be soaked for 24 hours or more, whereas 12 hours (overnight) is sufficient for Louisianas & Siberians.

All should be planted promptly thereafter: Siberians and Japanese with their crowns 3-4 inches below the surface, and Spurias, PCIs and Louisianas with crowns just below the surface. PCIs and Spurias need not be soaked if they are still moist. PCIs, being the most sensitive to transplanting, are often given special treatment:

soaking for a minimum of 10 minutes in a solution of Subdue (6 drops per gallon). We will try to have this reagent available at the auction/sale. Some recommend that PCIs be initially planted in pots before transfer to the garden.

Special request -- those bringing in beardless iris, please bring in early so that volunteers can prepare descriptions of iris that lack them. We also plan to have descriptions of all the iris obtained commercially to facilitate selection. Once again, we encourage all members to participate in this Fall auction/sale, the proceeds from which help to keep a roof over our heads and our dues reasonable.

Some doubts, and their responses:

Too much shade/not enough sun --	Try Louisianas, PCIs or Evansias (crested iris)
Too cold	Try Siberians
Yard too steep	Try Spurias for erosion control
Too little space	Try PCIs in pots or Pseudacorus or Japanese iris in water trays
Too wet	Try Louisiana, Japanese or I. virginica
Want cut flowers	Try Spurias
Soil too acid	Try most beardless iris other than Spurias
Too expensive	Our prices can't be beat!

**Morrison Library on the  
 UC Berkeley campus**

**Charles Abram Dekker**  
 April 9, 1920 - September 6, 2008

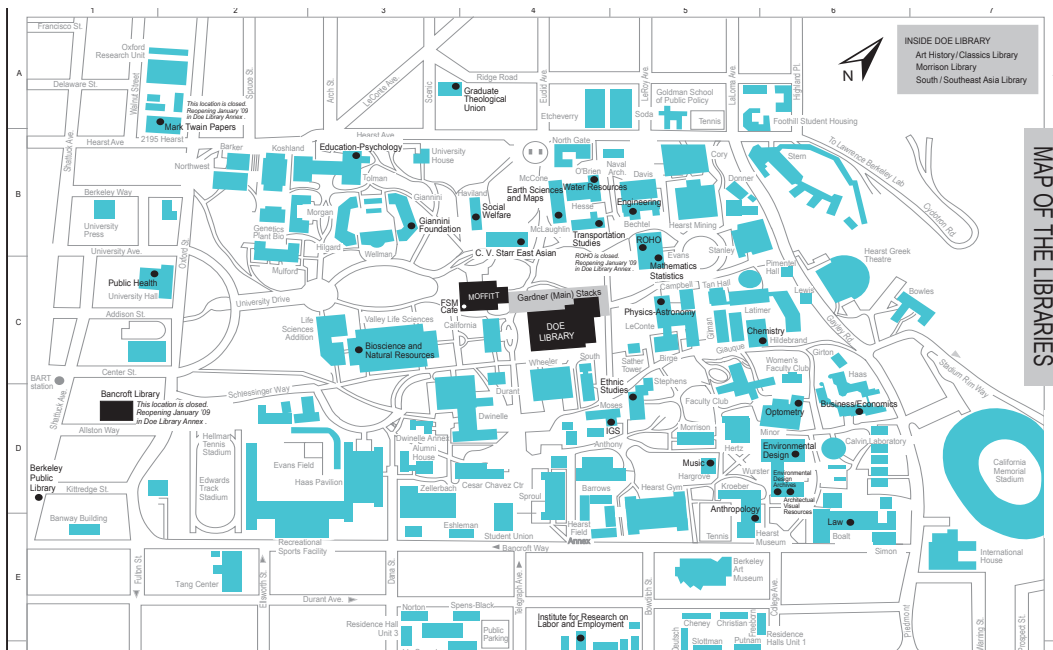

It turns out Morrison Library, a beautiful room, is just inside the main (north) entrance of Doe Library, the main library in the center of campus. As it's pretty much in the center of campus, the nearest parking lots are either the Lower Hearst garage (Hearst Avenue between Scenic and Euclid Avenues), or the Recreational Sports Facility garage (Bancroft Avenue between Ellsworth and Dana Streets).

Map of campus showing library is at [www.lib.berkeley.edu/instruct/guides/lib\\_map.pdf](http://www.lib.berkeley.edu/instruct/guides/lib_map.pdf) (see below)

Thanks again to the Pipers for their gracious hospitality for our Potluck! and the take-home apples were *wonderful!*

### **Fall Regional was a hit!**

A fine time was had by all -- Jeanne Plank gave an entertaining and informative talk about judging the Firenze, the major iris competition in Italy. She also facilitated a provocative and lively judges' training based on her judging experiences in Italy. Thanks to all who worked to make this happen, especially Bob Canning.

### *A New Sydney B Tradition!*

*We have members who for various reasons find it difficult or impossible to come to meetings. One of the issues is transportation. This could become a nice SBM tradition -- inviting, and arranging to bring members to our meetings. Makes everyone happy!*

If you see **old iris stuff which is about to be tossed**, please contact me (Gesine), so we can conserve these bits of history. I assure you, anything donated will be cherished. (510) 864-7962

### **Volunteer needed to represent Sydney B on the Board of the OEBGC**

~ Chuck Dekker had served as our representative for SBMIS on the Board of the Oakland East Bay Garden Center. We need a volunteer, preferably someone residing in Oakland. OEBGC meets once a month for 1 hour (9-10 am) on the 3rd Monday. It's a well-run organization which is gradually remaking and modernizing the formal gardens (fenced area) at Lake Merrit. Anyone interested, please call Jean Richter for details of activities and responsibilities. (510) 864-7962
