President's Message

I hope you'll be able to come to our beardless iris auction and sale, one of our important fundraising events for the year. In addition to various types of **beardless iris**, we will also have some **bearded iris** on the sale tables from a garden rescue project. Please contact me if you'd like to know what's available in advance, or cannot come to the auction and wish to make a proxy bid.

Jean Richter

BEARDLESS IRIS AUCTION AND SALE!

Pacific Coast iris, Japanese iris, Spurias, Siberians, Louisianas, and Species Iris will be available, from the gardens of commercial growers and veteran members, ready to plant. Of course, you can contribute to the cause by purchasing beardless iris for your garden or as gifts for friends!

DIGGING, WRAPPING, AND REPLANTING BEARDLESS IRIS:

Those bringing in iris are reminded that most beardless iris can be transplanted only during periods of active root growth. If, like many, you have not been watering during the summer months, go out NOW and give them a good soaking! Then, wait til the last possible moment to dig and package.

Some techniques suggested by Alan Robbins for transporting your iris:

Clean them well, label them with their name, color and year of introduction

(if possible) high enough on the leaves so that the buyer can read the info after packaging. Trim the leaves if they are too long for display on the sales table. The rhizomes and roots should be wrapped in wet paper towels or newspaper, placed in a plastic bag or Saran wrap and secured with masking tape. The tape can be an additional or alternate label.

PLANTING ~

Plant as soon as possible. Remember that PCIs, Siberians, Louisianas and Japanese iris prefer acid soil, while Spurias do best in neutral to alkaline soil. Before planting, soak Japanese, other water iris, Siberians and Louisiana iris in enough water to cover the roots. Japanese & other water iris should be soaked for 24 hours or more, whereas 12 hours (overnight) is sufficient for Louisianas & Siberians.

All should be planted promptly thereafter: Siberians and Japanese with their crowns 3-4 inches below the surface, and Spurias, PCIs and Louisianas with crowns just below the surface. PCIs and Spurias need not be soaked if they are still moist. PCIs, being the most sensitive to transplanting, are often given special treatment:

soaking for a minimum of 10 minutes in a solution of Subdue (6 drops per gallon). We will try to have this reagent available at the auction/sale. Some recommend that PCIs be initially planted in pots before transfer to the garden.

Special request -- those bringing in beardless iris, please bring in early so that volunteers can prepare descriptions of iris that lack them. We also plan to have descriptions of all the iris obtained commercially to facilitate selection. Once again, we encourage all members to participate in this Fall auction/sale, the proceeds from which help to keep a roof over our heads and our dues reasonable.

Some doubts, and their responses:

Too much shade/not enough sun --	Try Louisianas, PCIs or Evansias (crested iris)
Too cold	Try Siberians
Yard too steep	Try Spurias for erosion control
Too little space	Try PCIs in pots or Pseudacorus or Japanese iris in water trays
Too wet	Try Louisiana, Japanese or I. virginica
Want cut flowers	Try Spurias
Soil too acid	Try most beardless iris other than Spurias
Too expensive	Our prices can't be beat!

Some Of The Iris In Our Sale --

See pics of Ghio's 2014 PCI intros (a few of them at least) at: www.montereybayiris.org/ghiopci14.php

Pacific coast iris:

Border Dispute (Ghio 2014) PCI [above, left]

Mission Hill (Ghio 2014) PCI [above, right]

Yalapa (Ghio 2014) PCI [see photo page 5]

We ordered a bunch of things from Ensata Gardens:
www.ensata.com/ (list is below)
All of these should have pictures on the Ensata site.

Japanese iris:

Glitter And Gayety (Payne 1964) 3F. S. red-purple; Falls are white with heavy red-purple veins [right]

Freckled Peacock (Harris 2002) 3F. S white, thin rv edge; F white, speckled and rimed rv [left]

Pseudata (*I. pseudacorus* x *I. ensata*):

Kinshikou (Shimizu 2004) 3F. 37" E. Very striking yellow with a rose overlay; deep maroon halo and veins ("Golden Monkey") [see photo page 1]

Siberian iris:

Band Of Angels (Hollingworth 1996) Tet. Blue-violet with light blue edges; cream and gold signal blaze

[right column, left image]

Charming Billy

(Schafer/Sacks 2004) Red violet with pearly light blue styles, blue wash on falls [see photo page 5]

Handsome Harry (Bellagamba 2005) Attractive medium wine with lighter standards and very light ruffled styles [right column, above, right image]

Ruffles And Flourishes (Hollingworth 2002) Tet. Ruffled red-violet with blue halo and white wire rim on falls [left]

Sun Comes Up (Schafer/Sacks 2004) Blend of soft blue and pale yellow; full form [middle left]

Welfenschatz (Ahlburg 1997) Short, 20-22". Nice yellow. S. near white; F. bright dark yellow [bottom]

American Iris Society (AIS) Dues can be mailed

to Tom Gormley - AIS Membership Secretary
205 Catalonia Avenue / P.O. Box 177
DeLeon Springs, FL 32130
Phone and fax: 386-277-2057
E-mail: aismemsec@irises.org
\$25.00 single, \$30.00 dual.

Directions to the Garden Center:

666 Bellevue Avenue, Oakland

From the north or west: take Highway 580 or 24 to 980; take the West 27th Street/Grand Avenue exit, turn left on 27th Street, go east to Grand Avenue, watch for Lake Merritt on the right, take a left on to Grand Ave., then a right at the stoplight into the park. Proceed on Bellevue to the Garden Center. **From the south or east:** take the Lakeside (Lake Merritt) or Grand Ave. exit in Oakland; follow around the lake on the north and west side to Grand Ave. and Bellevue, turn left into the park.

Proceed to the Garden Center, park on either side of the road. We hope you can come -- everyone is welcome!

[On weekends only -- Expect to pay \$5.00 at the toll booth to park].

AC Transit Bus -- AC Transit bus #12 runs on Grand near the entrance to the park -- check transit before planning, as routes do change.

<http://tripplanner.transit.511.org>

By phone -- Dial 511 and say, "AC Transit," to speak with a person about route info

Sydney B. Mitchell
Beardless Iris Auction & Sale

~ Friday October 24th, 2014 ~

*A Sydney B Tradition!
We have members who for various reasons find it difficult or impossible to come to meetings. One of the issues is transportation. This could become a nice SBM tradition -- inviting, and arranging to bring, members to our meetings. Makes everyone happy!*

left: **Yalapa** (Ghio 2014) PCI
